Hello Paul and Remmie,

Following our Board of Directors meeting this morning I had the pleasure of having lunch at the LAFD Station 95.

I shared with them your issues with flooding along Century Blvd. and Vicksburg, and the concern about possible flooding of the data center in your building.

Captain Willahan would welcome the opportunity to visit your building and see the data center firsthand. He also said that he could reach out to the City to add emphasis to your request to have the storm drains cleaned out.
